

YOU ARE INVITED!

Brownfield Funding & Grant Writing Workshops

Two Free Workshops will be held in Mt. Vernon on September 27 & 28, 2017

Ariel Foundation Park, 10 Pittsburgh Ave, Mt Vernon OH 43050

Hello, Community Leaders, Planners, and Economic Development Stakeholders!

I wanted to let you all know about two free brownfield workshops being co-hosted by the Ohio EPA and the Technical Assistance to Brownfields Program (TAB) at Kansas State University. These will be held on consecutive days for the convenience of those who wish to attend both.

September 27: Brownfield Funding Workshop

Does your community have an abandoned building other potentially contaminated property that is impeding future growth? Topics are designed to help you and your community gain a better understanding of what a Brownfield is, learn how Brownfield revitalization can be a part of your community's economic development strategy, and hear from state and national representatives on resources available to you and your community.

September 28: EPA Brownfields Grant Proposal Writing Strategies

Topics will focus on information for local governments and non-profit organizations and their grant writers interested in applying for EPA Assessment (Community-Wide, Site-Specific or Coalition) or Cleanup Grants. Participants will learn tips to writing a successful proposal, utilizing the TAB EZ on-line grant writing tool; and partnering strategies required for successful proposals.

Who should attend?

Day 1: Local and regional government officials, economic and community development organizations, lenders and real-estate professionals, environmental consultants, property owners, and anyone interested in learning about brownfields, and financial resources.

Day 2: Communities and their grant writers who are planning to apply (or re-apply) for an EPA Brownfields Assessment Grant (Community-Wide, Site-Specific or Coalition) or Cleanup Grant in the near future.

Registration: Attendance is free, but registration is required for each day.

To register, please go to the workshop webpages at <http://www.ksutab.org/education/workshops>.

(If you need assistance with your registration, please contact Sheree Walsh, chsr@ksu.edu, 785-532-6519)

For more information contact:

Katie Courtright, Ohio EPA, katie.courtright@epa.ohio.gov, (614) 644-2938

Amy Yersavich, KSU TAB, amyersavich@gmail.com, (614) 206-8698

Please share this information with your colleagues, clients, and friends; please feel free to forward this information to any listservs or announcement postings you have to help get the word out.

We hope to see you there!

This workshop made possible with funding provided by US EPA
